Work Experience

Home Tutor (Mathematics Specialist)

- **Duration**: 6 years

- **Responsibilities:** Provided expert tutoring in mathematics to students, focusing on core concepts, problem-solving skills, and exam preparation. Developed customized learning plans to suit individual learning styles and needs, resulting in improved grades and confidence among students.

Marketing at Mobile Accessories

- **Duration**: 3 years

- **Responsibilities:** Spearheaded marketing initiatives for a range of mobile accessories, including strategy development, campaign execution, and sales management. Utilized market analysis to identify customer preferences and trends, contributing to increased product visibility and sales growth.

Order Taker at Pizza Hut

- **Duration**: 8 months

- **Responsibilities**: Managed customer orders efficiently, ensuring accuracy and timely delivery of service. Handled customer inquiries, complaints, and special requests with professionalism and courtesy, contributing to a positive dining experience.

Education   (Fall 2020 – Fall 2024)

Bachelor of Science in Computer Science (BSCS)

Riphah International University   **CGPA:3.1/4**

Focused on in-depth research in web development, covering areas such as front-end development, responsive design, JavaScript frameworks, and web infrastructure.

Project Work

- **Final Year Project (FYP) (2024):** Introducing The Bite Rider – your ultimate mobile app for food enthusiasts and culinary adventurers. Discover gourmet experiences, explore new flavors, and find convenient dining options with ease. The app offers personalized recommendations tailored to your tastes, preferences, and budget, all through an intuitive interface. Embark on a delicious adventure with the app at your fingertips.

Mini Project:

- **Color Generator**: Developed a dynamic tool using HTML, CSS, and JavaScript for generating random colors or specifying codes, ideal for exploring color schemes in web design.
- **Calculator:** Designed a functional web-based calculator using HTML, CSS, and JavaScript, enabling users to perform basic arithmetic operations with ease.
- **Navigation Bar**: Created a responsive navigation bar with HTML, CSS (Bootstrap), and JavaScript, enhancing website navigation across different devices for improved user experience.
- **Landing Pages:** Developed engaging HTML, CSS, and JavaScript-based landing pages using Bootstrap, tailored to effectively promote products or services with interactive features to drive user interaction and conversions.
- **Etc…**
